The Hawaiian Legislature is half-way through its session, and has passed but one bill, which provided money for its own expenses. The whole time has been taken up in wrangling over rules and points of order. Hawaii seems to be learning the worst of American ways go has practically decided to disband.

THE BAIRD INCIDENT.

The action of the Federal District in New York City. Attorney and the Federal Judge in the Sodergren case seems extraordinary, in view of the relations mutually borne in the American courts to a cause at bar by the judge, the prosecuting attorney and the jury.

In the United States tegral part of them, it is the business at the hands of a ruffian, of the judge to tell the jury the law; of the prosecuting officer to present the evidence to the jury; and it is the exclusive function of the jury to decide, upon the evidence and the law thus presented, whether the prisoner is guilty or innocent.

Here in Hawaii there have been at-tempts to partly eliminate the jury or John W. Garrett of Pennsylv at least to curb its freedom of action and make it a creature of the judge or of the prosecution. Thus, awhile ago, a jury, having done its duty, was denounced from the bench by the presiding jurist, and two of the men in the box were dismissed without fees. The ultimate result was that the offrom his false position and confess that he had overstepped his powers and infringed upon the rights possessed by the twelve good men and true, whose We then had hope that the jury system would not again be tampered with, nor has it been in the Territorial courts.

But how about the Federal courts? In the Sodergren case a jury, made up of reputable men, weighed the evidence and found the defendant not guilty. Can a judge afford to have it known that, in his court, a conviction is right per se and an acquittal wrong? Some After Diuner Remarks of Rev. Dr. Rainsford.

NEW YORK, April 26.-When Rev. Dr. William S. Rainsford of St. George's church said at the dinner of the New York Credit Men's Association Thursday night that it was "--- rot" to lay the blame for the war in China on the missionaries, he meant all he said, for he repeated the assertion today at

his residence. "I do not recall that I excused myself as a clergyman for saying it. I probably did not. I probably would not have said 'damned' if I had paused in advance to apologize for what I was

going to say," he said. 'I also said that clergymen were too a speech in Convention Hall during his highly specialized nowadays-so highstay in Kansas City on his return trip ly that a glass of wine or cigar is denied them. I still hold to that view. I could not be expected to change it over night because it got into print."

There was a distinct odor of tobacco in the study when Dr. Rainsford said this. It might be that Dr. Rainsford had just finished a cigar.
